Work About Resume

I am a product designer with a business background , and I code a little.

I am a strong believer that happy users lead to business growth :)

I am a strong advocate for users, but I also honor business goals, budget, and time constraints.

I strongly value numbers when ideating and reflecting on solutions.

I love doing side projects and hackathons.

I recently won an Innovation in Accessibility Award in Entée Lauder's Hackathon.

I built a Chrome extension and web app to enable job searchers to stay aware of and organized with all recruiting processes.

I sold water bottles to build a clean water infrastructures in Yumbe, Uganda (Calabash Water LLC)

and more!

I love spreading knowledge and ideas.

My favorite slogan is "ideas worth spreading." To live up to that, I was the Vice President of TEDxEmory.

I spearheaded Emory University's first design thinking organization in 2018.

I led design thinking workshops at the Consult Your Community National Conference to introduce UX to business consultants.
